

Protect the Adirondacks/Adirondack Watershed Institute

ADIRONDACK LAKE ASSESSMENT PROJECT Water Sample Storage & Delivery - 2014

List of Freezer Drop-off Locations

1. **Paul Smiths College** - Freezer is located in the Adirondack Watershed Institute (AWI) lab in the Paolozzi Center. For detailed directions to the AWI lab, see the back of the Volunteer Monitoring Instructions & Data Sheet provided with your sample bottles. Please contact Corey Laxson at AWI to arrange a delivery time [phone (518) 327-6101 or email at claxson@paulsmiths.edu
2. **North Creek** – Freezer is located on Susan Murante's front porch at 156 Main St. directly opposite the school parking lot. Porch door is always open. Susan can be contacted at (518) 251-2225 if necessary.
3. **Blue Mountain Lake** – Freezer is located in John and Ellen Collins' garage on Rt. 28. This is on the north side of the road, 0.9 mile west from the intersection of Rt. 28 and 30. A sign on the garage says "Collins". John and Ellen can be contacted at (518) 352-7717 if necessary.
4. **In Lake George** – Freezer is located at PROTECT office at 1851 State Route 9. Ring doorbell, freezer is in kitchen on 2nd floor in the back. Contact Peter Bauer (518) 685-3088.

Protocol for Water Sample Storage, Transport and Delivery

Please keep water samples, filters, and paperwork packaged together. Wrap the data sheet and filter around the water bottle and use a rubber band to secure the package. Multiple bottles can be stored in the Ziploc bag provided.

It is essential that water samples stay frozen until they can be delivered to the lab. Keep your samples stored in a home freezer until the end of the season if possible. Please transport your samples in a cooler when making a delivery.

If you are unable to deliver your samples to the above locations, please contact Corey Laxson to arrange an alternative delivery or pick-up. Directions for mailing are on the back of the AWI testing protocol and recording form.
