Subject: Re: Legislation

Ok today is crazy (btw just ran into senator and told her I'd like to get together later this month/early march to discuss constitutional amendments and briefing the new involved electeds). Will give you a call in the next day or so. Thanks

Hi Julie:

When you get a chance I would like to go over a few issues with you. Obviously the township-40 const. amendment/ implementation language and the NYCO const. amendment but I also wanted to talk to you about feral pigs. The Senator is still interested in carrying a bill to address the issue and I wanted to get some input from you on what has been effective and what could be improved. Further along that line if the invasive species legislation that was passed and signed into law last year could be used to protect against feral pigs as they are an invasive species and I know the bill does cover animal species as well as plant.

I hope you are well.

Best,

E

Elizabeth A. Wolters
