

These pictures are from the MacIntyre East Section of the High Peaks Wilderness from November 2021. These pictures show heavy machinery used by the Department of Environmental Conservation to reverse ecological restoration work and reconstitute a roadway in the High Peaks Wilderness Area.

PROTECT 
THE ADIRONDACKS!

These pictures show the heavy machinery currently used by the Department of Environmental Conservation to reverse ecological restoration work and reconstitute an abandoned logging road corridor in the MacIntyre East section of the High Peaks Wilderness Area.
